Before you read further you might want to construct your own:

- Complete differential diagnosis
- Final diagnosis

In the following section you will find:

- The differential diagnosis constructed by the MGH panel
- The final diagnosis of the case
- Which of the MGH panel differential diagnoses did Isabel contain
- Did Isabel suggest the Final diagnosis

Differential Diagnoses considered by the MGH panel:

Budd–Chiari syndrome
Hepatic veno-occlusive disease

Final Diagnosis of the case according to NEJM:

Budd–Chiari syndrome

Differential Diagnoses of the case as given by Isabel:

Budd–Chiari syndrome – Isabel 1st page
Liver pathology - Cirrhosis, Hepatocellular failure, Portal hypertension – Isabel 1st page

Was the final diagnosis given by Isabel?

Yes, Isabel 1st page

Entire presentation cut and pasted into the Isabel query box:

Liver pathology - Hepatocellular failure, Portal hypertension, Hepatic encephalopathy – Isabel 1st page
